

ENGINEERED AIR®

EngA®

FWE & UPEW Series Air Conditioning Units: **Custom Built and Compliant**

Engineered Air is pleased to offer the flexibility of custom built rooftop air cooled and indoor water cooled air conditioning units while ensuring compliance with federally mandated minimum efficiency levels.

- Third-party verified by internationally recognized CSA.
- Labeled by CSA for compliance to both DOE and NRCan mandated standards.
- Verified EER's & IEER's to meet/exceed ASHRAE 90.1-2010.

Engineered Air is one of North America's largest fully integrated manufacturers of custom built heating, ventilating, air conditioning, refrigeration and energy recovery equipment.
